## Creative Math and Applications

With Math Concept Art & Analysis

Utilizing a Creative method with Creative Mediums: Poetry, Math Stories, Thought Experiments, Expression/Formula, Unknown Art, Vector Art, Concept Lists, some Flow Chart Art, and Creativity Tests, etc.

This material has aided in the development of new paradigms, such as a System and/or Sub System paradigm. Giving a new look at the dominant Time/Space and Physical Attributes paradigm(s), currently used in Mathematics.
