

PREMIER MINISTRE

Paris, le

LE CHEF DE CABINET

CAB III-4  
MB/MLL

18 JUIL. 1980

PRIERE DE RAPPELER NOS REFERENCES

089399

Monsieur,

Le Premier Ministre a bien reçu votre courrier ainsi que les documents qui y étaient joints. Il vous en remercie.

Vous pouvez être assuré que ceux-ci ont été lus avec attention.

J'ai transmis votre correspondance à M. Hubert CURIEN, Ministre de la Recherche et de la Technologie et tenais à vous l'indiquer.

Je vous prie d'agréer, Monsieur, l'expression de mes sentiments distingués.

Thierry LAJOIE

Monsieur,

Le Premier ministre a transmis à Monsieur Hubert CURIEN, ministre de la recherche et de la technologie, le courrier par lequel vous appelez son attention sur vos travaux mathématiques.

Le ministre a pris connaissance de votre courrier avec intérêt et vous en remercie.

Je vous prie d'agréer, Monsieur, l'expression de mes salutations distinguées.

*M. C. Ledur*

**OBJECTIVE:** To find career-oriented employment in a multidisciplinary application of my field.

**EDUCATION:** Bachelor of Science in Computer and Information Science; minor in Mathematics with 3.1/4.0 GPA at Oakland University, Rochester, MI. (Graduated 1979.)  
Forty-eight credit hours in Mathematics, Chemistry and Psychology with 3.1/4.0 at University of Michigan, Ann Arbor, MI (1972-74).

**JOB SKILLS:**  
Programming Languages: Fortran, Algol, Pascal, Basic, Assembly, Snobol, Inspection Software (HP85-Validator II Browne Sharpe).  
Equipment Utilized: Burroughs 5500, Honeywell Multics System, Honeywell 6000, DEC 20, HP3000, HP85 Browne Sharpe Validator System, Motorola 6800 (microcomputer).

**EXPERIENCE:**  
July 1983-February 1984: Varian Associates, 811 Hansen Way, Palo Alto, CA. Receiving Inspection, Programmer Inspector. Worked on Browne Sharpe Validator II software driven by a HP85 computer. I programmed and subsequently inspected complexly machined "baseplates" for special and nominal tolerances and position including True Position. - George Ramsey, Supervisor.  
October 1982-July 1983: Dann Services, 2624 Fayette, Mountain View, CA. Assembly and Quality Inspection. - Diane Duckworth, Supervisor.  
July 1980-February 1981: Martin Marietta Aerospace, Denver, CO. Associate Software Quality Engineer. I oversaw software quality logistics by testing software, logging use of software and software development, maintaining and updating secure software library. Bob Prudhomme, Supervisor.  
March 1980-May 1980: Ford Motor Company, Triple E Bldg., Dearborn, MI. Programmer Analyst. I documented software that generated the test data and thus drove the Simulation Programs for the development of Ford's new EEC IV microcomputer. When documentation was completed, I utilized Fortran to complete editing changes on a DEC 20 for the new model year update changes to the Simulation Software.  
August 1979-January 1980: Chrysler Tank Plant, Mound and 17 Mile Road, Sterling Heights, MI. Programmer Analyst. I successfully completed numerous programming and system projects on a Honeywell 6000 using COBOL 68 and 74 including: two master file update programs, several reporting programs using information from a systemwide data base accessing sequential and random information, and much updating of outmoded existing software systems. - F.J. Phillip, Supervisor.

**INTERESTS:** Mountain climbing (March 81-June 81, Feb. 84-July 84). Special mathematics interests, photography, chess, music, furniture-making.
